

No Fun At All, Don't Pass Me By

I am what I am what I am what I am what I am
What I am what I am
I am what I am what I am what I am what I am
What I am what I am

I overheard your conversation in the night
It seemed to me that everything you said was right
I know that you have seen the tragedy of life
I can't control myself, don't try to pass me by
Don't ever try to pass me by
