

# No Fun At All, Walk A Mile For You

Coughing blood and I'm feeling fine  
So I've done for a long, long time  
Doesn't matter cause I got you  
Never lonely, I'm never blue  
lock you up and I put you out  
It's like a ritual to me

But every time I'm losing you  
I'm going out of my head

Spend our fortune ALONG the way  
WALK A MILE for you everyday  
When I'm shaking you make me still  
Your the one and the only thrill  
lock you up and I put you out  
It's like a ritual to me

But every time I'm losing you  
I'm going out of my head

Yeah

Looking good when you're in my grip  
When you hide, from my hollering  
I'm A Dragon you gotta see  
It's the way that you wanna be  
lock you up and I put you out  
It's like a ritual to me

But every time I'm losing you  
I'm going out of my, every time I'm losing you (x2)  
I'm going goddamn bananas
