

# No Knife, Academy Flight Song

someone crashed the party  
and i thought the worst part was over  
'til she took aim and struck me dead  
so now i guess it's what's in fashion  
taking part in new direction  
i thought i'd covered everything  
but it's not what they say now

this distance won't kill me or bring you back

someone crashed the party  
and i thought the worst part was over  
'til she took aim and struck me dead  
so now  
pressed against the window  
scattered across the bedroom floor  
whisper 'cause the walls are thin  
with secrets how can you be sure?

this distance won't kill me or bring you back
