

# No Motiv, False Trust

When will you see (help)  
Well I've had to deal with this political shit  
You people are all fucked (help)  
(help) you call your friends  
You can't deny yourself  
What's inside, what's really inside you  
Inside, what is true  
Your a liar (help)  
(help)  
(help) for me  
(help) make a change (Change!)  
Practice what you preach (help) no way  
Wait til you see, see it all slip away  
(help) another day  
(help) another day  
(help) you were gonna make a change (Change!)  
Practice what you preach (help) no way  
Wait til you see, see it all slip away  
(help) another day
