

# No Secrets, Baby It Works For Me

Something went wrong now she's gone  
Baby don't stress it baby don't second guess it  
Don't look down turn yourself around  
Baby I'm waiting with something I've been saving  
To let you go she must have been a fool  
Cause no one's ever made me feel the way you do

(Chorus)  
Whenever we touch  
I can barely breathe  
I'm telling you honestly  
Baby it works for me  
Heaven knows why  
She set you free  
Look in my eyes you'll see  
Baby it works for me, your love it works for me

I know what you need to believe in me  
I'm taking it slowly giving you time to know me  
Cause no one's kiss could ever get me like this  
Making me crazy that's what you do my baby

To let you go she must have been insane  
Cause no one's ever, ever made me feel this way

(Chorus)  
Take it take your sweet time  
Stay in these arms of mine  
You can trust in the two of us  
So hard to control myself  
When I want you and no one else  
You're everything, everything to me
