

No Use For A Name, I Detest

Money makes the world go round,
In every city and every town
Everybody has to work
But no one gets what they deserve
The IRS and Uncle Scam have manufactured a master plan
To profit off all our hard work!
I DETEST the IRS for taking money out of our paychecks
They got our number and they know what we make
They're always trying to get a slice of the cake
The profit and money means a better way of living life
The American dream, I don't know about you, but maybe for them
The IRS is not for me.
