Noa, Savior

Lyrics: Noa

Music: Noa + Gil Dor

Savior, my savior Pouring out over desert sands Through parched skin And madness.

On chamber after chamber 'Till it's all run out But oh, my savior My Savior.

You said: remember You said: remember, remember, When you're all dried out That which was sacred That which was sacred Remember...

Savior, my savior
Pouring out over desert sands
Through parched skin and madness
On chamber after chamber
Parched skin and madness.
