

# Noah Cyrus, I Burned LA Down

you left a hole in my chest  
when you left  
and my heart followed you out the door  
and i stood and bled in the hall  
watched it all  
and the mess that it left on the floor

if i gave you less  
would you want me more?  
And you could've said anything at all

Ooo,  
embers in the dark  
can look just like shooting stars  
to a bitter broken heart  
Oh,  
I wish i hadn't burned this city down  
cause you didn't care, no you didn't care  
yeah, i burned LA down and you left me there  
Oh , you left me there

i waste my breath on a prayer  
you don't care  
i was never a part of your plan  
you can't make a god  
of somebody who's not  
even half of a half decent man

Ooo,  
embers in the dark  
can look just like shooting stars  
to a bitter broken heart  
Oh,  
i wish i hadn't burned this city down  
cause you didn't care, no you didn't care  
yeah, i burned LA down and you left me there  
I burned this city down  
cause you didn't care, no you didn't care  
yeah, i burned LA down and you left me there

you left a hole in my chest  
when you left  
and my heart followed you out the door
