

# Nobody's Angel, Next Stop Heaven

I'm wide awake  
but you've got me dreamin  
Make no mistake  
I love how I'm feeling  
I can't believe the spell that I'm under  
You get to me and boy it's no wonder

With your heart beating next to mine  
in Perfect time boy you send me...

(Chorus)

First you get a little close to me  
All you do is look and my knees get weak  
Then you start kissing so soft and sweet  
Next stop heaven.  
You know exactly where to begin  
Every time you touch me you make me spin  
Ooh baby, baby do that again  
Next stop heaven.

You captured me  
without even trying  
But I'm so free  
It feels like I'm flying  
I can't explain just how you do it  
If loves a game I don't want to lose it.

With your heart beating next to mine  
in Perfect time boy you send me...

(Chorus)

Higher  
Ooh baby you yake me higher  
Come on baby only you make me...

(Repeat Chorus)
