

Nobody's Angel, We Are Family

Boys may come and Boys may go
But there's a little something
all you girls should know...
They could cover you with kisses
and dimonde rings, never give it up on material things.
There ain't a data file they will come on time
When they try to play and mess with your mind.
When you're looking for some one you can depend
don't look any further than your own best friend.

(Chrous):
We are family
I've got all my angels with me
We are family
And now we are gonna do are own thing

I'm not the kinda girl to sit home and wait
for the phone to ring waiting on some date
love chases with the weather out black the cats
sometimes I just might change my mind...
It's Billy on Mondays, Tuesdays Jack.
Forget about Bobby I don't want him back!
And we phone them on again, my heart again
I'd rather be with my friends!

(Chrous):
We are family
I've got all my angels with me
We are family
And now we are gonna do are own thing

Nananananana...

Keep the place Bumping!
Make it bounce that seat your bumping
Cuz we're the girls gonna rock your world
Let's get this party Jumpin' (x2)

(Chrous):
We are family
I've got all my angels with me
We are family
And now we are gonna do are own thing

Nananananana...
(until fade)
