

Nobodys, Nothing Matters

Say that you don't like me.
What i do ain't right.
Well i'm tired of hearing all you hippies f**king cry.
Don't do this, don't do that.
Can i bum a cigarette man.
It's not the 70's i don't like.
It's you that i can't stand.

Everything's different, everything's right.
I don't believe all your bullshit.
I don't believe all your lies.
You know that i don't care, i don't care what you think.
Save your breath, shut your mouth.
Turn around and go away!

Don't do this, don't do that.
"Hey, mellow out man."
It's not the cause that i don't like.
It's you that i can't stand.

Everything's different, everything's right.
I don't believe all your bullshit.
I don't believe all your lies.
You know that i don't care, i don't care what you think.
Save your breath, shut your mouth.
Turn around and go away!

Nothing matters to me.
Nothing matters to me.
Nothing matters to me.
Nothing matters to me.
