

# Nocturnal Rites, Sacrifice

Trapped in a world, where nothing is real  
Lost in the fires of hell  
Possessed I obey, in shadows I kneel  
A sacrament, venom released

I hear'em calling, gripping for my soul  
Schizophrenia, the eyes of the death unfold

Tormented mind, soul of black  
Lock up in chains forever  
Petrified heart eases the pain  
I'll be my sacrifice

Shattering world, I will not betray  
Rigid I await my command  
The whisper is near; it's leading the way  
Death - the final demand  
Turned around for another side of life
