

Nocturne, Head Trip

(Music and Lyrics by Lacey Conner)

I whisper in your ear
Things that you don't want to hear
Things that you can't get out of
Things you can't get out of your head

To afraid to close your eyes
Lie so still awake each night
Then you feel my breath on your skin
I tell the sweetest lies
I know how to get inside
Your greatest fears soon will begin

And you can't rid yourself of this
Rid yourself of this
Slowly I will destroy you
Destroy you

You can't save yourself

I consume your every thought
You don't know how to make it stop
And now your world is caving in
Once I get inside of you
There's nothing left for you to do
I'll tear you limb from limb
Until there's nothing left

And you can't rid yourself of this
Rid yourself of this
Slowly I will destroy you
Destroy you

Slide the blade across your wrist
Feel the cut now this is bliss

Now you have reached your salvation
Now you have reached your salvation
