

Nodesha, Cupid In Me

I heard about your reputation
You're into breaking girls' hearts
You want some
Playa is the gamin'
That keeps them chickens in the yard

Shame peepin' games baby
I know you're type is shady
Player you done met your match
I'm 'bout to play you back
And ooh wee when I'm done
Shorty's gonna have you sprung in love
I hope I'm bringing out the cupid in me

CHORUS

Since you've never fallen in love
I'm gonna be the archer that plays with your heart
Bringing out the cupid in me
Turn you on and turn you off
Break you down and let you feel your world falling apart
Bringing out the cupid in me

Flirt with you, tease ya
Yet you're thinking
Get you believin' you're my man
I'll flip out only to get you trippin'
Then I'll be so sweet you'll fall right in my trap

Cellphone ringing
Two-way beepin'
You think I'm somewhere cheatin'
Buggin', wondering where I'm at
And I won't call you back
And ooh wee when I'm done
Shorty's gonna have you sprung in love
Why I hope I'm bringing out the cupid in me
Oh yes I will

CHORUS

Since you've never fallen in love
I'm gonna be the archer that plays with your heart
Bringing out the cupid in me
Turn you on and turn you off
Break you down and let you feel your world falling apart
Bringing out the cupid in me

CHORUS

Since you've never fallen in love
I'm gonna be the archer that plays with your heart
Bringing out the cupid in me
Turn you on and turn you off
Break you down and let you feel your world falling apart
Bringing out the cupid in me

Honey, two can play this game
Only I can play it better
So sorry it had to be this way
Hope you learned your lesson

(Bringing out the cupid in me)

CHORUS

Since you've never fallen in love
I'm gonna be the archer that plays with your heart

Bringing out the cupid in me
Turn you on and turn you off
Break you down and let you feel your world falling apart
Bringing out the cupid in me

CHORUS

Since you've never fallen in love
I'm gonna be the archer that plays with your heart
Bringing out the cupid in me
Turn you on and turn you off
Break you down and let you feel your world falling apart
Bringing out the cupid in me

Honey, two can play this game
Only I can play it better
Bringing out the cupid in me
So sorry it had to be this way
Hope you learned your lesson
Bringing out the cupid in me

Honey, two can play this game
Only I can play it better
Bringing out the cupid in me
So sorry it had to be this way
Hope you learned your lesson
Bringing out the cupid in me
