

# Nodesha, That's Crazy

## CHORUS

We started as friends but now something's coming over me  
See we got this strange kinda chemistry  
I'm trying to ignore it but I just can't  
I think I'm falling in love with you  
Boy ain't that crazy  
Oh oh oh oh oh oh  
Now that's crazy

See our week started off like this  
There was no movie that we didn't miss  
There was no spot that we didn't hit  
And every night with a goodnight kiss  
Drop me off, hurry home in the car  
Saturday was our day at the mall  
I was the one that you told it all  
That's why it's hard for me to believe that I'm starting to fall in love  
So in love with you  
And you know it's true  
Do you feel the same way too

## CHORUS

We started as friends but now something's coming over me  
See we got this strange kinda chemistry  
I'm trying to ignore it but I just can't  
I think I'm falling in love with you  
Boy ain't that crazy

## [RAP]

It's kinda hard for a guy and girl to be chillin'  
Coz uh in the end one of the two is catchin' feelings  
And I thought for sure that it wouldn't be me  
But it is, now that's crazy

I'm jealous when you and another girl speak  
It's trippin' me out coz I'm in so deep  
And I don't know why coz we used to be  
Like sisters and brothers not lovers  
Oh your plan didn't matter to me  
We were having fun  
I used to joke say you were the one  
We laughed it off coz it sounded dumb  
Never thought that there'd be a day when you'd hear me say  
I'm in love  
So in love with you  
And you know it's true  
I hope you feel the same way too-oooh-oooh

## CHORUS

We started as friends but now something's coming over me  
See we got this strange kinda chemistry  
I'm trying to ignore it but I just can't

You know when I go, when I'm in or when  
A 2003 version of my (homie lover, friend)  
Somebody I can talk to  
When things don't feel right in the middle of the night  
You are (the only person I wanna run to)  
Coz we party, we kick it, we play  
We talk, we hug, we stay around each other everyday

CHORUS

We started as friends but now something's coming over me  
See we got this strange kinda chemistry  
I'm trying to ignore it but I just can't
