Utwór 'Council Skies' z albumu 'Council Skies' od Noel Gallagher's High Flying Birds (premiera 18

Catch a falling star and we  
Might drink to better days  
Hiding what we find behind the sun  
Thinking of what might have been  
And what the future says  
Waiting on a train that never comes

Taking the long way home  
So we can be alone  
Catching the butterfly  
Under the council sky  
Watching the word go by

Cause I believe in magical  
I'm dedicated to it on  
Underneath the council sky  
I found you

'Cause life is unpredictable  
You can win or lose it all  
Underneath the council sky  
I found you  
I found you
