

# NOFX, California

Don't want a theocracy  
Don't want to share my economy  
Fuck that shit about sea to shining sea

I want out of the U.S.A.  
But i don't wanna leave C.A.  
Jonathan Christ said it best first

Let California stand alone  
From Eureka to El Cajon  
Fuck the forty-nine  
We want our state to be left alone

I don't care where you were born  
You're not part owner of California
