

NOFX, Concerns Of A Gop Neo-Phyte

truth
now like a viral infection
the GOP developed a vaccine
get your shot from your local christian reading room
make sure your clothes are blue and neoprene

windows closed,
televisions on,
talk show radio
where everyone agrees
the plague is here,
but exposure is avoidable
turn up mind, relinquish control

question!
citizens questioning leader
dont want to set a precedent
were going ask all the questions
like what kind of patriot are you?
when did you check out Trotsky?
what is your major malfunction?!

traitor!
to the lord and creator
fucking communist faggot
an infidel living among us
procreating liberal hippie
disgrace yourself and your country
why dont you love it or leave it?!

i wasnt thinking of me
i wasnt thinking clearly
my deepest apologies
i wasnt thinking of me
i wasnt thinking of me
i wasnt thinking of me
i wasnt thinking of me
i wasnt thinking of me
i wasnt thinking of me
i wasnt thinking of me
i wasnt thinking of me
i wasnt thinking of me
i wasnt thinking!!!

benevolence blinded
tolerance indicted
why dont you love it or leave it?!
