Sitting in a room waiting for some news

Sitting in a room with white knuckles

Not feeling so good

I didn't do the things I should

I said, &quot;doc, tell me what's wrong with me&quot;;

He had this expression he didn't know what to say

&quot;it seems that you've contracted a new strain.&quot;;

How could this happen to me?

Another victim another casualty

From f\*\*king casually, another casualty

All the times I should have worn a jimmy hat

All the times I said, &quot;what the f\*\*k,

I won't look back, that's not for me.&quot;;

I wouldn't listen to reason

Now look at me
