

NOFX, Herojuana

Light the match,
Burn the flower,
Leave behind,
All the wrong,
Why be sad,
When happiness can be bought,
For a little more than free,
Modern day prohibition,
Are we men, are we children,
At what age, can I choose,
How to live,
The only real drug problem,
Is scoring real good drugs,
Havent we learned our lesson,
The corner store sells finer scotch,
But who's got uncut powder,
We just want what is ours,
Dignity if god created plants and buds
That I find and abuse
Then who the fuck are you to judge me?
