

NOFX, Kill all the white man (live)

The white man call himself civilized

Cause he know how to take over

The white man come to pillage my village

Now he tell me I have to bend over

Oh yeah, kill all the white man

No I don't like the white man up in me

He rape my people as he rape my country

Everything I love and cherish, he try to take away

We will be rid of him, soon come the day

Oh yeah, kill all the white man

Oh yeah, kill all the white man

Oh yeah, kill all the white man

Oh yeah, kill all the white man
