

# NOFX, Louise

She had to walk with a silicone cock sticking in her ass and one in her cunt  
A butterfly strapped tight to her clit  
But who's got the remote control  
That would belong to Louise  
She's got a new pet a real vaginal tease  
mommy's little girl is gonna do  
what she please  
If she don't want to get a spankin  
She like to speak like a six year old brat  
Mommy discipline me, you know i've been bad  
Start with cat then she'll move to a crop  
Neither one is willing to stop  
She knows how girls just wanna have fun  
With four piercing on each side of her labia  
A little luggage lock connecting each one  
Prevents her girl from going astray  
Slut you think you've seen your master mean  
You better lick my puss and asshole clean  
Treat my clit like bubblegum  
Bitch make me come  
It's time for bed she'll be securing her head  
Between her thighs for a thorough night suck  
Along with this she'll be drinking her piss  
So Louise don't have to get up  
Two goddesses in love  
One resides below one reigns from above  
One's short in cuffs while one covets keys  
The purgatorial touch of Louise
