

NOFX, Release The Hostages

Stop

Have a beer it's on me

Has anyone ever told you

That you look like star

Innocent at the bar

So i drink 'cause it makes me

Happier than bein' alone

My good friend Jhonny Walker

Keeps me warm like a cunt

Seems like everybody's got

Something i have not: a reason not to die

So i say death to mister right 'cause that's not me
