

NOFX, Stickin In My Eye

when I look round, I only see outta one eye
as the smoke surrounds my head, the sauna
I hear the voices, but I cant make out their words
saying things, saying things, that
I ... got something sticking in my eye
got something sticking in my eye
got something sticking in my eye
I feel unusual from thinking
about the underground decay, god help me
kill beneath the camera, watch the world begin to cry
its not from pity
it comes from whats been sticking in my eye
got something sticking in my eye
got something sticking in my eye
got something sticking in my eye
got something sticking in
got something sticking in
got something sticking in my eye
