

NOFX, Tenderloin

<i>[Rancid cover song]</i>

realize you're dehumanized and
criticized for your existence
it's your demise when no sun arises
you're paralyzed by your lack of resistance

She know she is
She knows she's going
Down below where the fire's glowing
Tenderloin, Tenderloin, Tenderloin

The tricks she gets them
she's not a victim
She makes a list of them and reds reads them all alone
For money she's walking down on larkin
In t.i. they're rocking all night long.
