

# NOFX, Truck Stop Blues

A truck stop in Kansas with nowhere to to many days without  
any shows 5 cups of coffee as I just sit and mold its 4 am as  
I sip from my cup its 5 am the suns coming up my body has  
shifted to the touring mode trying to sleep in the van on the road  
I gotta find a place to call home I've got the truck stop blues  
taking care of myself paying my dues living life day by day I've  
got the truck stop blues don't think I'd have it any other way
