## NOFX, You Drink, You Drive, You Spill

I say don't drink and drive you might spill your drink before you get behind that wheel, just stop & amp; think you can take you chances but there's so much to lose another bumpy road, there's so much wasted booze I'm not so worried about how many I kill I'm much more concerned with how much beer I spill 35% of accidents are caused by pixilated the other 65 are not alcohol related what does this tell us about the drunk drivers they seem to have a better record than the sober team
