

# Noise Ratchet, End

Our lives are vacant  
In us again  
The time its taking we go  
On and on and on  
To change what's wrong into real  
Our suffered scars are healed.

We can get there  
We can go all the way tonight  
The journey's long  
But our hearts are right.

Come follow this  
Come follow this, follow

We've come a long way,  
He made it work.  
Even though we went on  
On and on and on

Our souls are here  
And the end is near  
We can get there  
We can go
