

# Noise Ratchet, My Day

I woke up today  
In a sick, sick world  
I opened my eyes to see  
It's just a hurting place

My God can break its fall  
In a world of hearts not beating at all  
Its chances are leaving with time  
Its kill or be killed evolution lies

Day after day has gone by  
I try and I try to realize  
What I can change  
What's falling apart.
