

# Noise Unit, Liberation

Bring power to its knees (clear Delerium Coup de Tat reference)  
In all its glory its still a disease  
Bring power to its knees  
An evil empire to set you free

Revolution no solution  
Systematic persecution  
No redemption no more hope  
No tomorrow go for broke

Muthafucka burn my house down

Liberation declaring war upon a generation  
Liberation burn their houses and fuck the nation  
Liberation premonition sterilization  
Liberation one dimension for all occasions
