NoMeansNo, I'm an Asshole

I listened hard to all your talk, but with none of it could I agree You're deep in the thick of your own bullshit and the smell of it nauseates me I've got a grudge that I want to grind in the teeth of your superior sneer Step outside or I'll be obliged to spew all over you here

There is a problem, you see You know that problem is me Forget your psychology What is the problem with me? I'm an asshole

I met your wife, she was very nice, and she really took a shine to me We talked about this, we laughed about that, and we shared a drink or three My head's in the window, my foot's in the door, my fork's in the mulligan stew And with every bite through the moaning night you know UM be thinking of you

(chorus)

There is nothing that I wouldn't do to fuck you up royally I've got a finger in all your pies and you'll never get away from me Look at my face, look in my eyes, and forgel your psychology The world may be buying your present disguise but you can't pull the wool over me

(chorus)
