NoMeansNo, Sitting on Top of the World

One summer day
She went away
Gone and left me
She's gone to stay
She's gone, but I don't worry
Because I'm sitting on top of the world

I'm going down to the hardware Gonna buy me a hacksaw Gonna free my heard Cut that pain away She's gone, but I don't worry Because I'm sitting on top of the world

I'm going down to the graveyard Gonna buy me a tombstone Gonna leave this town Lived here too long She's gone, but I don't worry Because I'm sitting on top of the world
