

Nomy, Crucified By Love 2006

erase my name, from the past
so many years have gone so fast
So Take this life and be gone
You are no longer my number one
You made me live hoped you'de stay
never knew what she was about to say
Im sorry for the time
you still one of a few
I'm sorry you were mine
I'm crucified by you
and What we had was fine
God was crying blood
yeah life are left behind
I'm crucified by love
it turned out you're no longer mine
without a whisper and without a sign
nail me nail me to the cross
