

Nomy, On my grave

There will be no flag on my grave

They'll say I missbehaved

They'll dig me down for good

oh yeah

There will be no flag on my grave

cause I was not that brave

They'll say I could'nt kill my enemy

But the pain I handled inside I laid it on you

You killed it to

And the guilt for all that I've done I laid it on you

STICK

I'll be the one, Im coming home , just be there waiting for me

The time is now My only god my everything

There will be a day when they will see yeah you will grant them clarity

You made me live you made me die you made me rise

there will be no flag on my grave

Cause I was not a slave

My faith is all I ever had to use

There will be no one at my grave

Only jesus inside of me Holding me

Whisper that I'm finally free

I'll be the one to die now
