

Nomy, The Devil

I dont now what's going on
You will never do remember
the one that treated you with tender
All you need is what they give
So you dont need to work no more
And all the ugly girls gets poor
And now you're bought and carried home
You'll get rich but you'll get wrong
Ooooh the Devil is a woman
She's eating you alive, and you'll never gonna pass her by
Ooooh the Devil is a woman
All she do is lie, for the money and she'll pick you dry
I dont know whats going on
Cause your look is over rated
And your kind is truly hated
All you want is what's for free
And you just cant let it be
Thats why you'll never be with me
