

Nomy, When you are dead

All this time its in my mind
who I am and how to shine
But Im ready to forget
when you're dead
I found you again inside of me
A friend that betrayed what we could be
For all that I am believe me its true
I still hate you
All I have is what you gave
A great example of misbehave
But I wont take you out of my head until you're dead
I found you again right in this song
cause you are me and I am wrong
for all that I am get out of my head
before Im dead
and I cant take this anymore
cause it kills me and that I know
I forgive you when you're dead
I hope live in pain now my friend
I hope you're all alone
I forgive you when you're dead
All this time I stood aside
tryid to make you change inside
But I will take you out of my head when you're dead
I found you again right in my song
A place were you always do belong
Hell is your end and now you know why if you would die
and I cant take this anymore
cause it kills me and that I know
I forgive you when you're dead
I hope live in pain now my friend
I hope you're all alone
I forgive you when you're dead
Hey little boy what are you gonna do
Run away we're gonna come for you
Hey little boy what are you gonna do
give it all up cause we are more then you
now tell me what you are
hope you'll get hit by a car
How could I ever think that you would change
And now I can turn the page
