

# NONONO, One Wish

One wish whispered to the ear  
I want the most  
Keep it safe from the world  
Know it will bring me all

And this wish will keep me sailing  
Safe into the storms  
No matter when I go  
I will reach the shore

When we go  
Feel it in the air  
Where we ship  
I'm coming home  
With one wish  
One wish

And the void, running through  
The darkness and the cold  
Season comes and they go  
I'm away in the storm

And my heart singing from  
The bottom of it's core  
No matter when I go  
I will reach the shore

When we go  
Feel it in the air  
Where we ship  
I'm coming home  
With one wish  
One wish

Be, be the heart, be, be be the dark  
I fell with you aside so many times  
But the wish keeps me sailing, the seas are the radio

When we go  
Feel it in the air  
Where we ship  
I'm coming home  
With one wish  
One wish
