

Nonpoint, Mised

Twisted, intricate, obscure and tangled double-edged through
My head leaving
Me mangled incomprehensible questions and words created
from all of the stories you heard these complications are going too far
and show Me exactly who you are.
It should never be this hard.
Mislead into thinking that everything's okay misread
My answers cause all of the hear-say you'll understand
someday soon changed
My direction redefined
My intentions how can you mention the good that we had
when everything else makes
Me mad.
It should never be this hard.
Breakaway runaway hideaway just to get away.
It should never be this hard, don't try and make
Me stay just turn your head and walk away.
