Nonpoint, Struggle

Con Fuerza Boriqua

Strugglin goin through the motions

Day in day out

Another commotion

Backstabbed don't know how to stop

A friend is only a dollar in a pocket

Won't let you

Chase the dream that I had since I was

Just a little chico in my teens

Now you're gone and I'm doin fine

And you are since you went to

Can you see the tears?

Can you see the pain?

Do you see the hate that I have today?

Can you see the tears?

Can you see the pain?

Do you see the hate that I have?

From demention

To depression

This is the anger we generate

From demention

To depression

This is my anger

It's time for me

To live the dream

And to release my anger

It's time for me

To live the dream

And to release my anger

And to release my anger

And whether you or me or him

Ever really thought that I would make it

Never really took another second

To reply to all the letters

Sent all the people asking me

To be president

And whether you or me or him

Ever really thought that I would make it Never really took another second To reply to all the letters Sent all the people asking me To be president 180 Degree turn You never learned your lesson Your mistakes that Cause and effect the brainiack Acting like you're a punk 180 Degree turn You never learned your lesson Your mistakes that Cause and effect the brainiack Acting like you're a pun Stabbed your back It's time for me To live the dream And to release my anger It's time for me To live the dream And to release my anger
