## Nordafrost, Dungeons

Darkness The smell of wet stones Moist walls Limbs and mould

Fear panic frost and stench The will to get out escape from death Misty thoughts freeze in the brain No one's left only you still remain

## Chorus:

The dungeons of Xerolia An endless maze Asphyxia The dungeons ox Xerolia The deep frost of Mageroya

The end of life seems to have come You have escaped but you are alone The end is here you won't be found The winterdemons take you down
