

# Nordafrost, Ruler Of A Bleak Realm

I came through the endless fog  
Through this patchy eternal grey  
To get where thou are waiting  
Thou goddess of the black realms  
Thou beauty of the dark mistress of  
The cursed winterdemons...

Thy might starves in solitude  
It's waiting for being shared  
So you'll spend strenght, make me come alive  
United we will rule

Chorus :  
Thou art my wishes incarnate  
My main essence of life  
Oh beauty of darkness animate me  
Thou ruler of a bleak realm

I came through the endless fog  
Through this patchy eternal grey  
To get where thou are waiting  
Thou goddess of the black realms  
Thou beauty of the dark mistress of  
The cursed winterdemons...

We the infernal alliance  
No force on earth might stop  
A union almighty force beyond ice  
Last one on earth will fade

Chorus
