

Norma Jean, Box It Came In

My clothes are all ragged my goodwill coat's not the best
And I'm walking on cardboard in my last dollar dress
I looked in the closet for my wedding gown
But the box that it came in was all that I found
He took everything with him that wasn't nailed down
Bet he's got a new sweetheart to fill my wedding gown
But somewhere I'll find him then I'll have peace of mind
And the box he comes home in will be all satin lined
(steel)
He took everything with him...
And the box he comes home in will be all satin lined
