

Norma Jean, Home Made Love

Need her on your business trips hold her tight and kiss her lips
Just enough to tie you over from time to time
I'll be waiting all alone you gotta hardly welcome home
So when you're lonely just keep in mind
Home made love home made love old fashioned kisses sweet and warm
Home made love home made love the only thing you find it's in my arms

She can keep your company until you get back to me
But don't let your appetite run away with you
You'd be sorry if you would you're too decent kind and good
I don't think that kind of love would agree with you
Like home made love...
