

# Norma Jean, No One's Gonna Hurt You Anymore

You've cried the last tear you're gonna cry  
You've kissed your last lips that cheat and lie  
Forget her baby she's just not worth hurtin' for  
Your heartache's over it's all gone I'll make you happy from now on  
And no one's gonna hurt you anymore  
You've been mistreated neglected and cheated out of the love you should have had  
But give me a while and I'll make you smile for the times she's made you sad  
You've cried the last tear you're gonna cry  
You've kissed your last lips that cheat and lie  
Baby no one's gonna hurt you anymore  
Don't be afraid darling come to me cling to me and I'll kiss away all your tears  
And here in my arms you'll be safe from harm now and for all the coming years  
Your heartache's over it's all gone I'll make you happy from now on  
And ne's gonna hurt you anymore darling no one's gonna hurt you anymore
