

Normal Like You, The Next Song

Here in America,
They say that we are free,
Titled to Opinion,
But we don't know what they might be,
We can Liiiiiiiive, in...
Some place without any change,
And I wish,
Today would be different,
But i knew it'd end up the same,

OH i don't wanna be,
i don't wanna be,
whatever description,
that you labeled me,
And nobody cares at all,
my failure's your pleasure,
it never gets better,

I can't accept your words,
And I won't let them touch my pride,
Simple in our complexion,
Then we're labeled and just tossed aside

nothing to say,
there's nothing I can say,
to make things better,
i wish that today would be different,
I should have known better,

Oh i don't wanna be,
I don't wanna be,
whatever description that you've labeled me,
and nobody cares at all,
my failures your pleasure,
it never gets better,

(bridge)

Oh I don't wanna be,
ii don't wanna be,
whatever description that you've labeled me,
and nobody cares at all,
my failures your pleasure,
it never gets better,
it never gets better,
it never get better...
