

# Norther, Forever And Ever

(As I look up to heaven)  
As I look up to heaven  
Stars above stare at me  
And my eyes drown in tears

Oh, how I hate the silence in here  
Only coldness lies besides me

&lt;l&gt;[Chorus:]&lt;/i&gt;  
How long do I have to wait for you?  
Why can't you be here?  
I'm so cold, and I'm alone  
Why can't you be here?  
Forever and ever

&lt;l&gt;[x2]&lt;/i&gt;  
I close my eyes and wish to dream  
But no dream will come to me

When will you be here?

Silence is more louder  
Covering my beating heart  
But the night is getting colder

Still I'm here without you  
Still I'm here all alone  
Forever I'll be here  
Waiting for you

&lt;l&gt;[Chorus:]&lt;/i&gt;  
Why can't you be here?  
I'm so cold and I'm alone  
Why can't you be here  
Forever and ever

I close my eyes and wish to dream  
But no dream will come to me

When will you be here?

I close my eyes and wish to dream  
But no dream will come to me

As here I wait

I close my eyes and wish to dream...  
(But no dream will come to me)
