## Norther, Reach Out

Where have you gone I can't see you What's going on I can't feel you Come back wherever you are Come back just follow the star What can I do I can't hear you Where do I have to go to find you Where are you now Where are you now

Reach out to my hand And I will pull you into the light Hold on to my hand And you shall never fall again

Fear is keeping you where I can not come Tear your fears, Let them go with tears
