

# Norther, Thorn

In my eyes I despise your twisted life  
Something controlling your fucked up mind?  
Just a thought of you with your twisted little smile  
Stings me like a thorn in my spine

You told me sacred lies  
Through your twisted little eyes  
you're sick!sick!  
You're a twisted little star  
You're a sick motherfucker and a fucking cocksucker  
Just dwelling in the dark

(-chorus-)  
Thorn in my spine  
That's all you are  
Thorn in my spine  
That's what you are

I can't stand the sight of you  
I can't stand what you put me through  
You're a twisted little fuck!  
You're life a lie that you hide  
Is it that terrible being you inside?
