

# Northern State, Mic Tester

Mic Tester

I'm a microphone tester, smoked out and broke out  
in the back of a van with sprout and hesta  
I light up like a lighter, you're a bedroom writer  
and I'm out of breath cause now I rock my jeans a little tighter  
Yo- forget what you know I'm dropping sweat on the front row  
This ain't the simple life- but it's the only life I know  
Sleeping like you got jet lag- and now you're breathing in a paper bag-  
What the hell, I wish you well, I wish you luck, so what the fuck?  
I heard your mom drives an ice cream truck.  
You'll never touch what we got-  
Three hots and a cot and a snare that claps on the track  
And me and sprout and hesta prynn go way back.

I'm a microphone genius, how can I explain, what goes on in my brain  
You won't believe till you've seen this, I mean this  
And everytime I walk by, all the people on the avenue like, "Why so fly?"  
And if you got a sweat-suit and you're dripping with diamonds,  
tell me are you a rapper or a mom from long island?  
MTV much to my chagrin, is about as exciting as an ottoman.  
I'll always call you out just like I always did before  
I don't give a fuck we ain't on Sony anymore  
I run with spero and sprout and I don't give a damn  
I'm Hesta Prynn, "Don't you know who I am?"  
I'm the right girl. For tonight girl. I'm the right girl and  
I don't give a fuck that I rap like a white girl.

I'm a microphone master, you're quick, but I'm a faster MC  
I'm the master of ceremony  
It's just mic and me like we were meant to be  
Happily every after in matrimony  
When I'm up on stage I command the crowd  
Check 1,2,3 turn my mic up loud  
We bring our own mics  
We don't need the stands  
You can't see the wires  
The mics in our hands  
mic test, mic tech, but you're no mic tester-  
Try to juggle this fire- you microphone jester  
Think you're the best but you know we're the bester  
Gonna head out west with spero and hesta  
Use the microphone like a judge with a gavel  
Always rock the party wherever we travel  
Everywhere I go I bring the mic I own  
Cause I'm the master tester on the microphone.
