

# Northstar, Blind Crush

Remember your hazel eyes  
And beautiful smile  
Straight from the mouth  
And I can't sleep tonight  
My lost love grinds and I spin in time

You held me up, when I first met you  
Hold me up, I'm dying to let you  
Hold me up now, hold me up now  
Hold me up and save me from myself

I'm sorry about the constant stare  
So rip my heart and take it  
It's all I have to give, love  
Give up, sweetheart, run away with me

You held me up, when I first met you  
Hold me up, I'm dying to let you  
Hold me up now, hold me up now  
Hold me up and save me from myself

Can't you say, you touch me?  
Given me everything that I need to hold on  
Please, hold on to me  
While we dream, when we dream (x8)

You held me up, when I first met you  
Hold me up, I'm dying to let you  
Hold me up now, hold me up now  
Hold me up and save me from myself
